

# Uploading Progress

A separate page has been created to track the process of unloading files

1. Click on the "Upload" tab
2. Here you can set the number of files to be uploaded at the same time
3. Here you can set the number of times the task will try to restart in case of an error
4. This is the list of current upload tasks
5. Button for clearing successfully executed tasks
6. Button for clearing tasks with errors
7. Button to stop all active or pending tasks
8. The button for a forced restart of all tasks with errors
9. The list of links corresponds to the list of successful unloading tasks
10. The switch allows in the text field (9) instead of splitting links into multiple lines, but to separate them with a space, without splitting.

The screenshot shows the 'Uploading' tab of a software interface. It features a top navigation bar with icons for Files, Downloading, Uploading (selected), Links, Multimedia converter, Link checker, Torrents, Automation, and Settings. Below the navigation bar are two dropdown menus: 'Threads:' (0-10) and 'Job restart tries:' (0-10). To the right of these is a checkbox labeled 'Divide by space'. Below the dropdowns are three buttons: a trash can (5), a stop sign (7), and a refresh/clear button (8). The main area contains a table with three rows of upload tasks. The first row is for 'ninjastream.to', the second for 'VIDEO.ninjastream.to', and the third for 'VIDEO.ninjastream.to'. Each row shows a file name, size, and progress. To the right of the table is a text area containing three URLs, with a switch icon (9) below it. The interface is annotated with numbered callouts: 1 points to the 'Uploading' tab, 2 to the 'Threads' dropdown, 3 to the 'Job restart tries' dropdown, 4 to the first row of the table, 5 to the trash can button, 6 to the stop sign button, 7 to the refresh button, 8 to the 'Divide by space' checkbox, 9 to the switch icon, and 10 to the text area.

Icon	Source	File Name	Size	Progress	Speed	Link
✓	ninjastream.to	__sample[].mp4	199.65 MB	199.65 MB		https://ninjastream.to/download/9dbmX7y3GZyEO https://ninjastream.to/download/LjKAW7zjnAEBM https://ninjastream.to/watch/ExamDDbWpmR8M
✓	VIDEO.ninjastream.to	__sample[].mp4	199.65 MB	199.65 MB		
✓	VIDEO.ninjastream.to	__sample[].mp4	199.65 MB	199.65 MB	42.21 MB/s
